SITE MAP

The home page will introduce your central question and your solution. Be clear. Be simple. Be powerful. Be clever. Be impactful. This is the face of your project.

The subsequent pages will be your supporting material- background, examples, testimonials, experiments, statistics, interviews, media, vocabulary, diaries, etc.

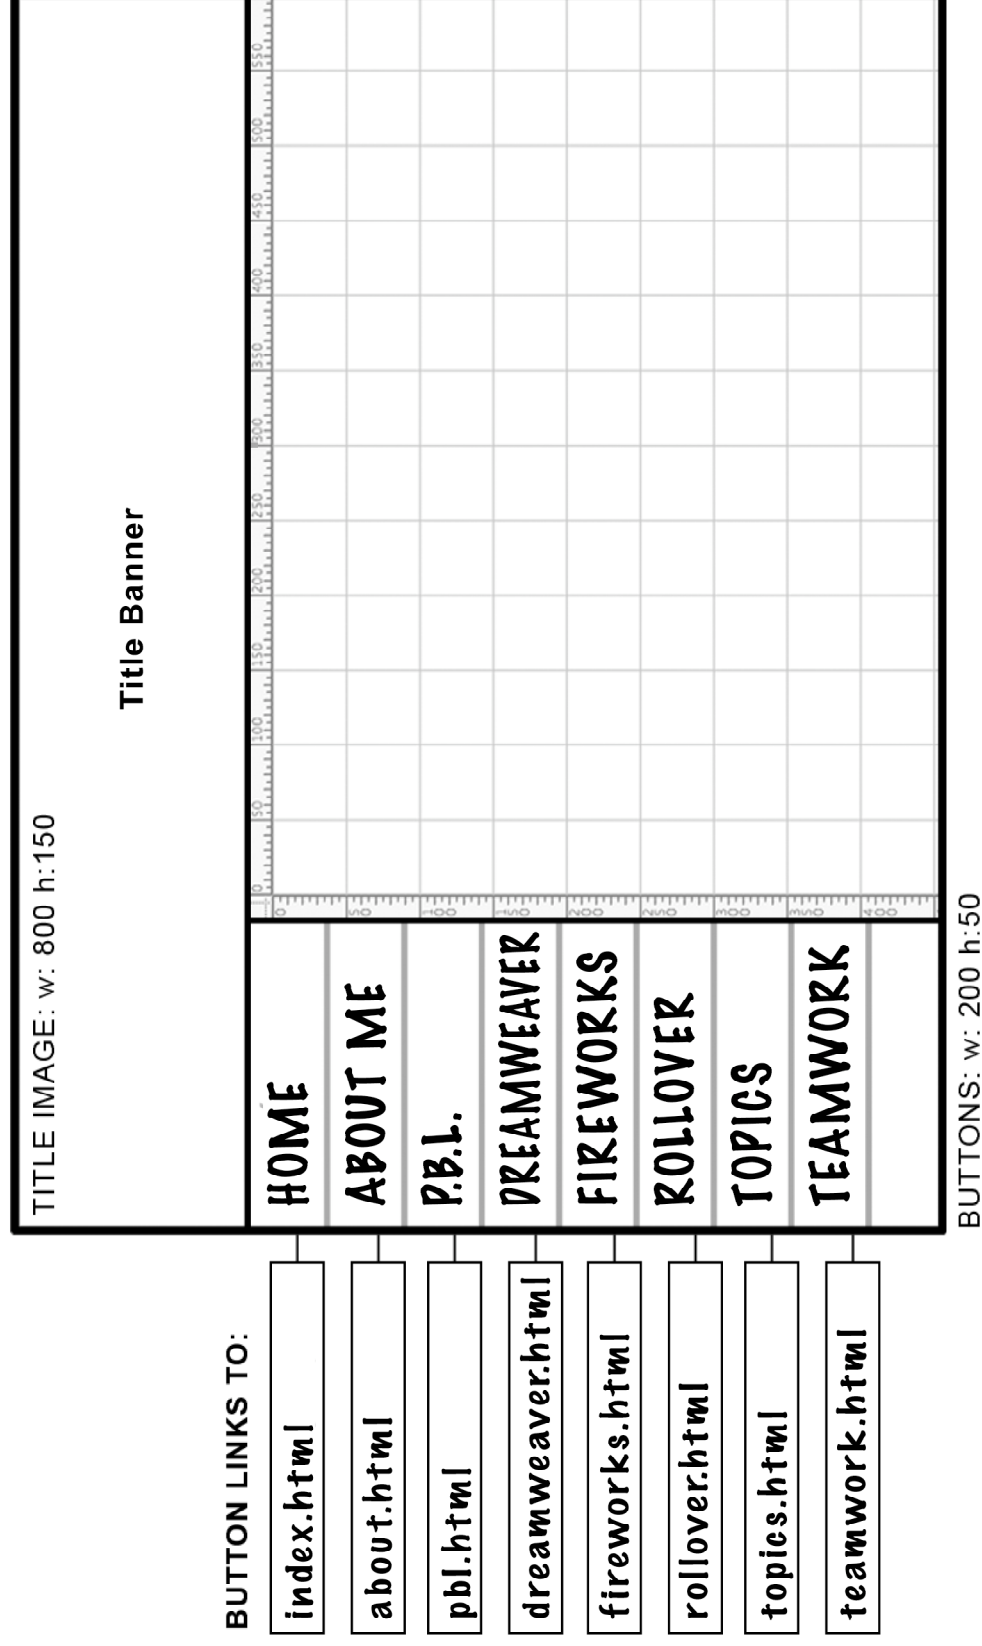

Each page should be enhanced with graphics (illustration, chart, photograph) and/or media (podcast, video, animation). Graphics and media should be original and impactful.

The About Us page will introduce the teammates (no last names, no photos). An insight into each person's background and passion for the project is a great addition.

The Citations page should be organized in the resources used for each page, including any graphics or media that were not created by the team.

EWITT: Paper Templates

The following four templates are designed for your team to organize how the website will look and function. This is where you will name the buttons and choose the HTML page each will link to. Using the example below, choose the best template for your project and fill in the button and link names. **This template also gives you the sizes for the button and title graphics!*

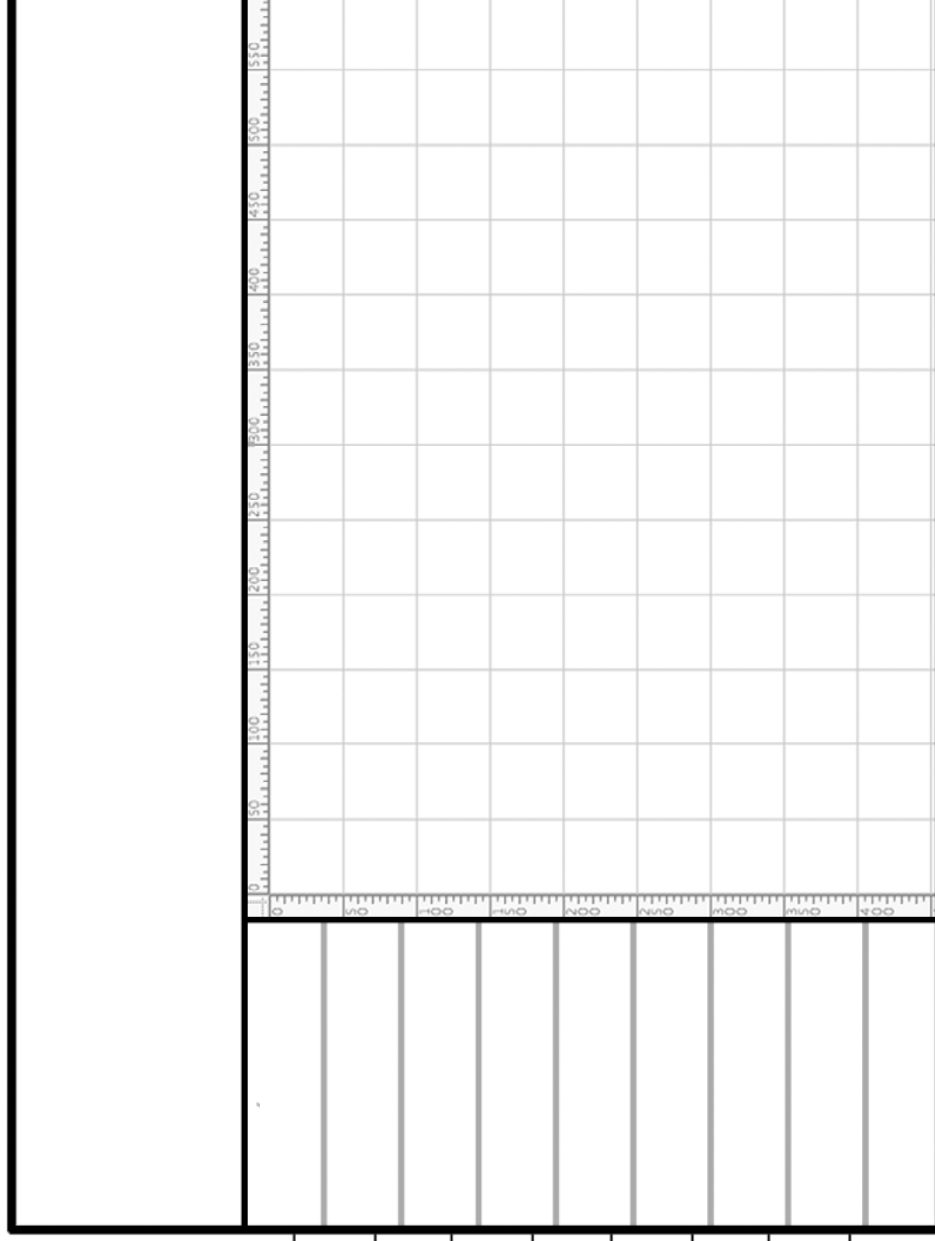

TEMPLATE 1

TITLE IMAGE: 800 X 150

BUTTON LINKS TO:

--	--	--	--	--	--	--	--

BUTTONS: 200 x 50

TEMPLATE 2

TITLE IMAGE: 800 X 150

BUTTON LINKS TO:

BUTTONS: 150 X 100

0 50 100 150 200 250 300 350 400 450 500 550 600 650 700 750 800 850 900 950 1000

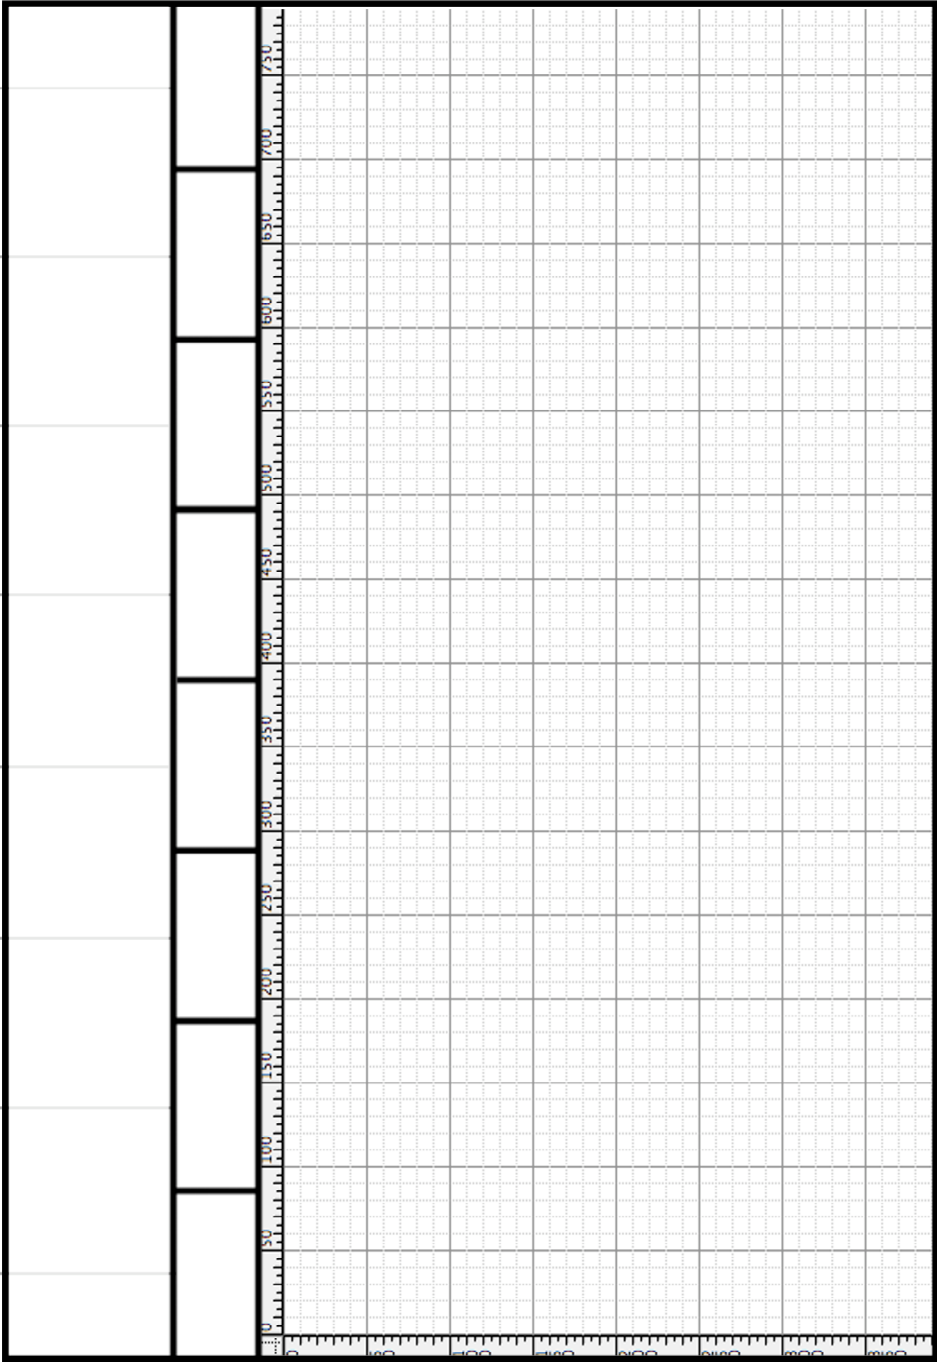

BUTTONS: 150 X 100

TEMPLATE 3

PUT LINK INFORMATION IN THESE BOXES

TITLE IMAGE:
800 X 150

BUTTONS:
50 X 100

TEMPLATE 1

MICKIE'S MIGHTY INSTRUCTION

PROJECT-BASED GUIDANCE TO AWARD-WINNING ENTRIES FOR THE 2011 THINKQUEST COMPETITION

[HOME](#)
[ABOUT ME](#)
[P.B.L.](#)
[DREAMWEAVER](#)
[FIREWORKS](#)
[ROLLOVER](#)
[TOPICS](#)
[TEAMWORK](#)

Welcome

Thanks to funding through the Title II D grant, the Office of Educational Technology Queens has brought Mighty Productions to work with teachers in developing great website projects with their students.

Our philosophy is to teach the fundamentals in a simple and logical way. When the fundamentals are understood, it is easy to expand to more advanced techniques.

We will focus on the fundamentals... with lots of room for creativity... in this site. All of the tutorials relate to each other (i.e. the buttons made in Fireworks will be inserted into your HTML page in Dreamweaver).

GOOD LUCK

mighty productions
